Nero Series Keyboard

Alu Series Keyboard

LogicLight™

– Use our LogicLight™ lamp if you need help in seeing the characters on your keyboard.

With the LogicLights USB connectivity it is designed as a perfect companion to our LargePrint line of Apple and PC keyboards with integrated USB ports. No extra cable, power supply, or driver is needed. Just Plug-and-Light and the 10 pcs build-in LED's yields helpful keyboard lighting.

You can even connect up to two lamps in the same keyboard for maximum illumination.
